

On-Duty EMS Providers: COVID-19 Precautions

Maintain Social Distancing!

While on-duty, only one (1) EMS Provider should be in the driver's compartment operating the vehicle, while the other should be secure safely in the patient compartment to ensure social distancing. These guidelines should be followed even when there is no patient.

DEFINITION

EMS PROVIDERS SHOULD....

Properly disinfect the ambulance after every call.

Frequently sanitize all regularly used items while on-duty (cell phone, laptop, backpack, personal stethoscope, etc.) **DO NOT** bring any unnecessary items into the ambulance.

BEFORE HEADING HOME...

- Remove all work clothing AND,
- Wash clothing at work, if available (wash clothing in hottest water possible).
